PROFESSIONAL SUMMARY

Motivated Software Engineering student with strong fundamentals in **Data Structures, Java, and Web Development**. Experienced in building **full-stack web applications using React.js, Node.js, Express.js, and MongoDB**. Skilled in developing REST APIs, responsive UI components, and solving algorithmic problems. Passionate about building scalable applications and continuously improving software development skills.

SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6), Responsive Web Design

Frontend: React.js (Basics), DOM Manipulation

Programming: Java (OOP, DSA), C (Basics)

Backend & Databases: SQL (Queries, Joins), REST APIs (Basics)

Tools: Git, GitHub, VS Code

PROJECTS

ACADEMIC POLICY MANAGEMENT SYSTEM

- Implemented role-based access control(Admin, Faculty, Student) with secure authentication using JWT and bcrypt.
- Built features like policy version control, approval workflow, and search/filtering to ensure transparency and access to latest policies.
 - Designed a responsive React.js frontend with a Node.js, Express.js, MongoDB backend for scalable and secure data management.

ECOMMERCE BACKEND APPLICATION

- Developed backend features including product management, user handling, and order processing
- Implemented RESTful APIs for seamless frontend-backend communication
- Used Git and GitHub for version control and project collaboration
- Worked with basic cloud deployment concepts and environment configuration

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
Bannari Amman Institute of Technology (BIT), Sathyamangalam
CGPA: 7.5 / 10

2023– 2027

Swamy Vivekanandar Matric Hr.Sec.School,Salem
Percentage: 84%

Completed 2023

ACHIEVEMENTS

- Solved 200+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Earned Responsive Web Design Certification– FreeCodeCamp
