PROFESSIONAL SUMMARY

Motivated Software Engineering student with strong knowledge of Java, Object-Oriented Programming (OOP), Data Structures and Algorithms, and basic Spring Boot. Skilled in developing REST APIs, SQL, Git, and modern software development practices. Strong analytical and problem-solving abilities with a passion for learning backend technologies and building scalable applications.

SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6).

Frameworks: Spring Boot (Learning), React.

Programming: Java, C, Python, C++.

Backend & Databases: SQL, REST APIs.

Tools: Git, GitHub, VS Code.

PROJECTS

ACADEMIC POLICY MANAGEMENT SYSTEM

- Implemented role-based access control (Admin, Faculty, Student) with secure authentication using JWT and bcrypt.
- Built features like policy version control, approval workflow, and search/filtering to ensure transparency and access to latest policies.
 - Designed a responsive React.js frontend with a Node.js, Express.js, MongoDB backend for scalable and secure data management.

AI RESUME ANALYZER & INTERVIEW ASSISTANT

- Developed a full-stack AI-powered application using Java, Spring Boot, React, MySQL, and Ollama to analyze resumes and provide career insights
- Implemented PDF resume parsing, AI-based resume scoring, job description matching, skill-gap analysis, and personalized learning recommendations
- Developed a Spring Boot backend with REST APIs, JWT authentication, Spring Data JPA, and MySQL, using AI tools to assist with implementation and debugging.
- Developed an AI interview question generator for Java, OOP, DBMS, SQL, Spring Boot, projects, HR, and behavioral interview preparation.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2023–2027

Bannari Amman Institute of Technology (BIT), Sathyamangalam

CGPA: 7.5 / 10

Swamy Vivekanandar Matric Hr.Sec.School, Salem

Completed 2023

Percentage: 84%

ACHIEVEMENTS

- **ServiceNow** Certified Implementation Specialist – Data Foundations (CMDB & CSDM).
- Solved 200+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
